

## **Fortress Stabilization Install Certification Overview**

We thank you for your interest in becoming a Fortress Stabilization Certified Installation Contractor!!

Our Fortress Carbon Kevlar foundation straps offer lifetime warranty for your customers. They can only be installed by Certified Installation Companies and here is how you become certified:

We hold online sessions normally once a month lasting approximately 90 minutes. We also require a copy of liability insurance and builder's license (where applicable) this insures homeowners that all contractors are of the highest standard.

Certification consists of:

Installation:

- Carbon Kevlar Grid Straps
- Kevlar Neckties
- Countersunk Staples
- Shear Plate Anchor
- Structural Urethane Foam

### Case Studies:

- Various Case Studies for real life installation situations

### Benefits:

- Free installation training
- Certificate of completion showing you received a high degree of training in composite strengthening
- Continued support from our staff on product uses and installation
- Leads from our website
- Monthly newsletter  
<http://www.fortressfoundationrepair.com/newsletters/>
- Free education for customers <http://fortresstabilization.com/faq/>
- Free product marketing brochures etc.

We look forward to working with you!!

Sincerely,

The Staff at Fortress Stabilization Systems
